

High School Science and Ag Instructors

Summer Biotechnology Institute

- Learn how to implement an authentic research experience about DNA and dog behavior in your course!
- Experiential learning about the biotechnology industry with Neogen!
- Curriculum, supplies, and onsite support provided during the school year, plus a stipend is provided!

Summer 2024 Session:

Thursday, July 18, 8:30-4:00

Friday, July 19, 8:30-12:30

I got to better understand biotechnology processes and allow my students to engage in real science for a few days. This may seem like “just another thing” but this is the thing we should be doing as science teachers.”

Emily White, LPS Science Teacher
